## Shed news

As you are aware Alresford Boat Owners is a cooperative organisation with the aim of providing affordable boating and storage. Associate members now have another opportunity to be an active part of the cooperative's future. A prospectus has been emailed to members, together with an application form to purchase a full share in the cooperative. To enable as many members as possible to take part, we have two purchase options available. You can either pay £450 for a share or spread the cost over 5 monthly payments at £90 each. Please read the prospectus carefully and consider joining us.

## Moorings

What a difference twenty years makes, the two sets of jetty photos show how the structure has deteriorated. Images 1 & 3 date from 2005 & 2007. Images 2 & 4 were taken in January 2026. I don't think I shall use it to step my mast anymore.
